

LEEWOOD
HEALTHCARE CENTER

SERVING YOU FROM OUR HEART

Grace
HEALTHCARE Supported Facility

welcome to our facility

Leewood Healthcare Center of Annandale is a licensed 128-bed skilled nursing and post-acute rehabilitation facility located in the heart of Northern Virginia's melting pot. Our facility is minutes from the District of Columbia, and is conveniently close to Inova hospitals. With residents' quality of life as the top priority, our center's team provides skilled nursing care with thoughtfulness in a home-like environment. Both short- and long-term stays are served by our multi-cultural staff whose passion and dedication is to improve the health and overall well-being of our senior community. Our center also gladly offers a secure memory care unit, hospice care and respite stays. Additionally, our campus includes Leewood Assisted Living, which makes the continuum of care that much easier for assisting residents with the services they need. Tour today!

We accept Medicare, Medicaid, most insurances, and private pay.

skilled nursing

Leewood Healthcare Center's skilled nursing services are oriented around provision of specialized care for recovery after hospitalization. Our dedicated team helps residents and family members feel at home while receiving individually-focused healthcare. From nursing care and nutritional support for recovery, to the activities of daily living, we focus on an innovative, comprehensive interdisciplinary approach. Our services include diabetes management, ostomy care, respiratory therapy, IV management, enteral nutrition, post-surgical care, and certified wound care.

rehabilitation

Whether recovering from a stroke, fall, or any other health condition that would benefit from rehabilitation, our therapy department provides a variety of services for our community. Working to gain a clear understanding of personal goals, we are committed to returning our residents to the highest possible level of function and independence. Utilizing state-of-the-art programming and advanced modality services, our team has the education and experience to help residents meet goals through physical, occupational and speech services.

respite

Our team manages a respite program that provides caregivers time-off from caring for a loved one at home. In the event that care is needed for a long weekend or for a few weeks, family members can feel secure knowing their loved one is provided with a safe, home-like healthcare setting where both short- and long-term residents receive clinical monitoring by an educated, skilled staff whose goal is to meet needs quickly.

secure memory care unit

It is our goal to provide compassionate care to those diagnosed with Alzheimer's and other related cognitive disorders. Complementary therapies and non-pharmacological interventions are encouraged in our Secure Memory Care Unit, where staff endeavor to provide a home-like setting with extended comfort and individualized activities, including the use of our Multi-Sensory Room.

health & wellness

We embrace the concept of socialization for every resident and believe the healing process and long-term health stability relies on personalized care. From live music events, beauty shop visits and exercise classes, to pet therapy, Resident Council meetings and religious services, our staff supplements wellness by delivering opportunities for residents to maintain a fulfilled and pleasurable stay. From one-on-one interaction to group participation, our energetic team strives to utilize tailored activities to meet the individualized needs of our residents. Our compassion is expressed both by how care is delivered by our staff, and how we organize and operate our building and programs.

comfort care

Our comfort care program, which includes both palliative and hospice care, provides for individual resident wishes. Our goal is to comfort the resident and help them transition through this phase in their life. Our facility's nursing team also offers support to the families and loved ones of a resident going through a Graceful End of Life Transition. It is our staff's intention to be mindful of when visitors are present and to anticipate their needs.

about our support partners

Grace Healthcare Support Services is a privately owned organization that supports skilled nursing, assisted living and rehabilitation facilities across the United States. It is our goal that you or your loved one will receive quality, compassionate care by well-trained professionals whose goal is *serving you from the heart.* Our facility care partners provide each resident the opportunity to achieve their greatest potential and also endeavor to provide peace of mind to families. Our company's philosophy of Graceful Living encourages facility teams to go above and beyond in creating warm, caring environments. This common goal drives us to develop new programs and initiatives that support continuous improvement in care.
